Low headroom FFUs

# Low Headroom ULPA Filtered FFU

- CAP119 cleanroom fan filter units from Clean Air Products are energy-efficient, self-powered modules with integral backward-curved blower/motor assemblies. Designed for use in T-bar ceiling grid systems, these low-profile fan filters are easy to install in applications where overhead space is limited. Available in a range of sizes and efficiencies, these units are well suited for [Class 100,000 to Class 10 cleanrooms](#).

Standard mini-pleated HEPA filters are 99.99% efficient in removing particles of 0.3 [microns](#) or larger. Filter media is nonflammable
