

Summary of Contacts for Solar

Acciona Energy	Leading operator of CSP
American Tank & Vessel	Promoting tanks for Solar and has heavy fabrication in MS Tx
Alfa Laval	Heat exchanger for largest concentrated solar in the U.S.
Angelantoni	Engineering for Archimedes
Aalborg CSP	Steam generators and developing molten salt system
B&W	Molten salt systems and receivers
Bright Source	Concentrated solar without molten salt
ENEA	Researching materials for molten salt
Enel	Archimedes owner
Emypro	Tank fabricator for Gemasolar
Esolar	CSP system provider using B&W and Flextronics
Fluor	Designing CSP
Flextronics	Designs collector systems for esolar
Foster Wheeler	Gemasolar molten salt system supplier (also Valle 1, 2)
GE	Steam turbines used in Spanish CSP
NETL	Funding CSP and will be helpful
Outokumpu	Supplying 347H for Torresol molten salt systems
PA consulting	Assisting Solar Reserve but mainly on heliostat design
Pittsburgh DesMoines	Fabricator for Solar Two
Rocketdyne (United, Pratt)	Designer of molten salt system
Sandia Labs	Researching materials for molten salt
Sener	Designer for Torresol molten salt
Siemens	Steam generators for solar including Archimedes
Solar reserve	Crescent Dunes and Rice CSP with rocketdyne molten salt
Sun to Market	Engineering thermal systems in U.S., Europe, and India
Tyco	Molten salt valves for Archimede and good collaborator
Worley Parsons	Engineer for Crescent Dunes
