

Next Generation Hydraulic Media Family

Benefits without Compromise

What is the Challenge?

Hydraulic media

Lower dP

Same Performance

- Efficiency
- DHC
- Thickness

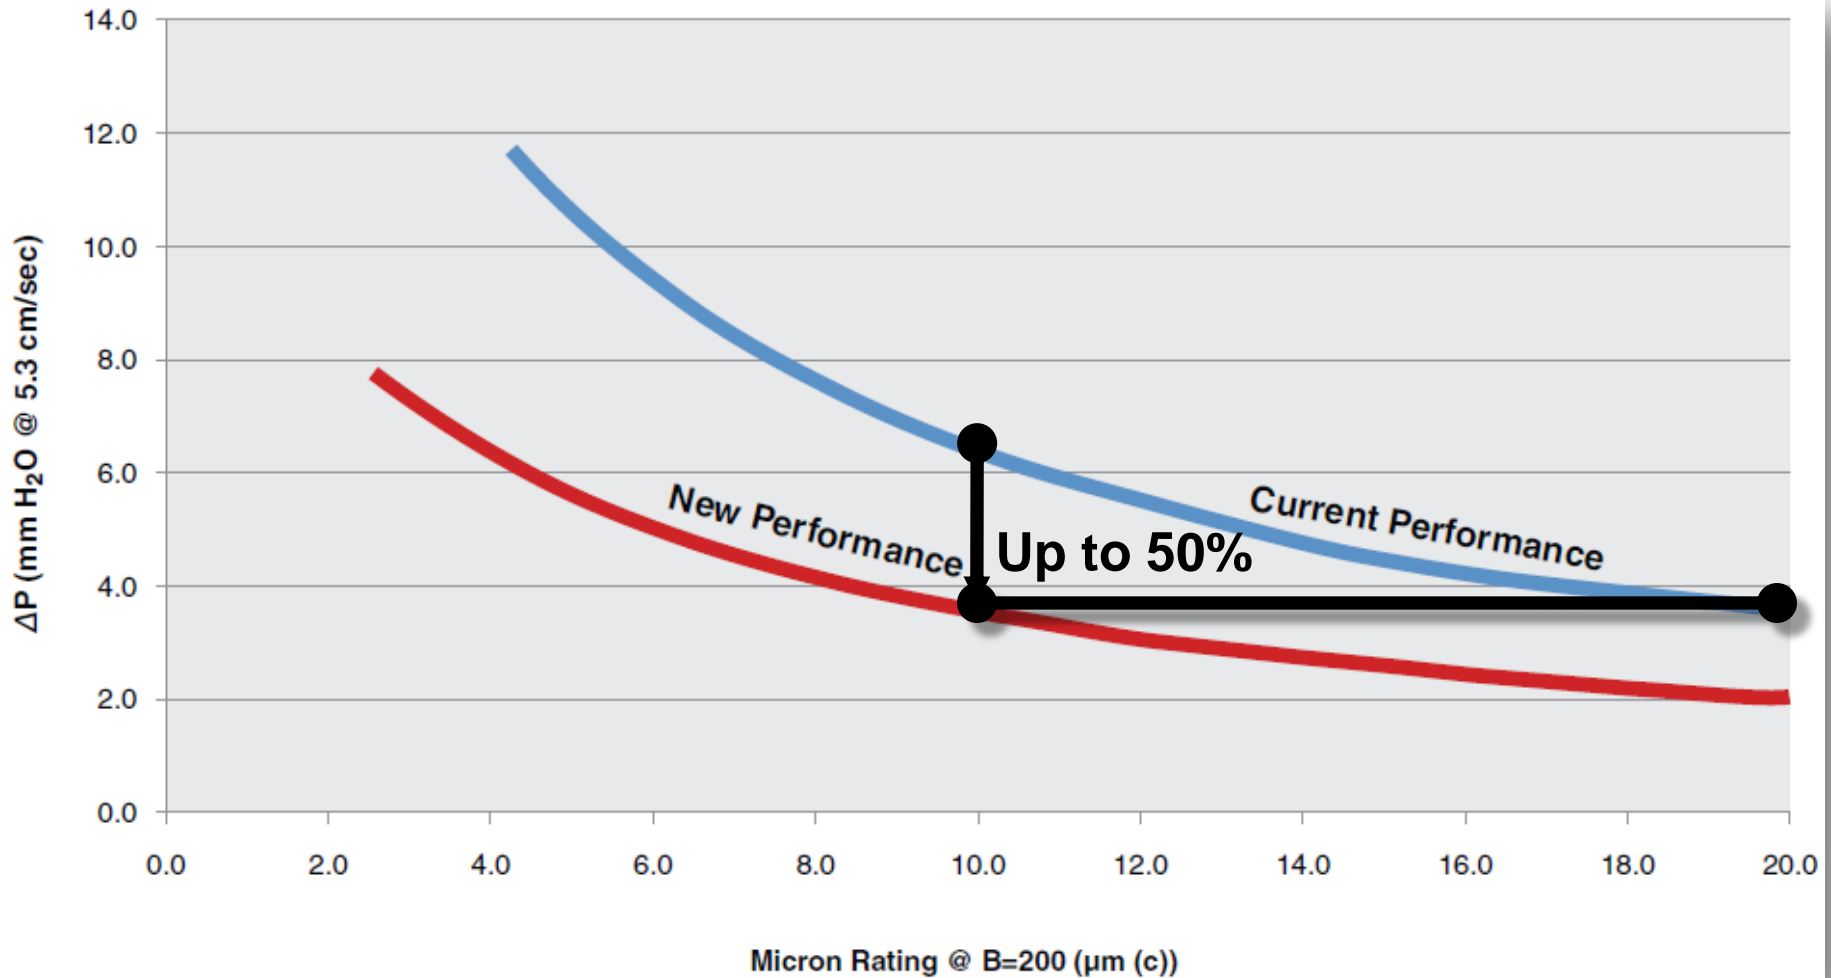

No Change in M^2

50% Lower dP

50% Lower Pressure Drop

How to Reduce Delta P?

- Add 25% more media to get up to 20% lower Delta P

Best Way

- Same media area
- No more screen
- No more scrim
- No machine set up change
- No increase in processing time
- Up to 50% reduction in delta P

- Plus 25% more screen
- Plus 25% more scrim
- Change set up on machine
- Use 25% more processing time

**Improve energy
efficiency**

**Raise up your
service interval**

**No processing
changes**

**Lower cost of
maintenance**

**Reduce system
requirements**

Benefits Without Compromise

- = Micron ratings
- = Thickness
- = DHC
- = Pleats
- = M²
- + Cost effective

- Lower Delta P
- No compromise

Hollingsworth
& Vose

Get the hydraulic filter performance you need
with the pressure drop you dream of.....

**Hollingsworth
& Vose**

Global leader in Air, Liquid, & Battery media driving greater value in our customers' products by inventing next-generation materials
